6. Other suggested topic(s)

- Common IEM in HK
- Hope to know about the future plans of the IEM programme
- I wish the presentation will be specific in each diagnosis.. How to diagnose, the approach and managemt
- Oncology related
- Thanks for the very informative and updated lecture
- Topic especially for G6PD and thyroid disorder
- Very comprehensive sharing

7. Other suggested speaker(s)

NA

8. Other comments for improvement(s)

- fine
- Fruitful lesson, hope the have similar topics or extended topics in the coming months.
- Hope to join in again
- Is there any possibilities to send sample from other countries to your lab in helping us to confirm diagnoses?
- It will be useful if we can have a copy of the presentation powerpoint
- More Webinar Series but do not be so long please
- quite a number of overlap in the content in different talks is noted
- The ppt of the 2nd lecture was too blurred & could read via tab.
- well done and good seminar
- Well organised thank you
