

3rd BCM-CUHK-PUMCH Joint Symposium in Clinical Genetics: Pre-Congress Workshop

Clinical Genome Sequencing and Bioinformatics (2:00pm-5:45pm, 12 April 2019)

Scientific Program

| Time | Topic | Speaker |
|-------------|---|---------------|
| 14:00-14:30 | Understanding the technology of genome sequencing | Christine ENG |
| 14:30-15:15 | Strategies for processing and annotating sequencing data | Elvis DONG |
| 15:15-15:30 | Tea break | |
| 15:30-16:00 | Practical tips: How to interpret WES report with case illustration | Christine ENG |
| 16:00-16:30 | Functional interpretation of CNVs | Feng ZHANG |
| 16:30-17:00 | Genome sequencing: a single test for comprehensive prenatal diagnosis | Richard CHOY |
| 17:00-17:30 | Application of WES in Paediatrics with case sharing | Carlos BACINO |
| 17:30-17:45 | Discussion | |

Overseas Conductors/Speakers

Carlos A. Bacino, MD, FACMG
Professor
Vice Chair Clinical Affairs
Department of Molecular and Human Genetics,
Baylor College of Medicine
Director, Pediatric Clinical Genetics Service,
Texas Children's Hospital

Christine M Eng, MD
Professor, Molecular and Human Genetics
Baylor College of Medicine
Chief Quality Officer, Vice President
Executive Lab Director,
Baylor Miraca Genetics Laboratories
Director, Storage Disorders Clinic
Texas Children's Hospital
